Advanced Topics in Cognition and Perception (Psy394U)

Fall 2008  F 12:00-3:00, SEA 4.324

Instructor:  W. S. Geisler

Office:  SEA 4.328A (phone: 471-5380, email: geisler@psy.utexas.edu)

Office hours: by appointment

Content:

In this course we will read and discuss recent or important papers in perception science with a focus on
the topics natural scene statistics and attention (overt and covert).

Requirements:

Students will be required to read all the papers, and will be assigned several papers to present during the
semester. The grade will be based on the presentations and class participation.

Most of the papers are available on-line and will be located at the website:
http://homepage.psy.utexas.edu/. To get to the materials go to "Classes" at this site, then go to
"Psy394U” and then go to the “Geisler” folder.
